

What do we do?

Last Updated Thursday, 09 July 2009

Whether you're setting down your roots for the first time, or uprooting and planting yourself somewhere else, you've probably come to appreciate that finding the right mortgage can be a minefield, not to mention time consuming. Many people take the easy route and deal only with the high street lenders direct, however this approach does not always represent the best value for your money.

Did you know that here at Ashfield Mortgage Shop that we deal with these same lenders too, and a whole host of other ones? Because we deal with so many lenders means that we are in an excellent position to find the deal that best suits you and your needs.

We are small enough to offer something that is sadly lacking in the mortgage and financial services market place today, personal service. Remember, you are under no obligation to try us out, let us save you some time and worry and find you some deals to choose from. To complement your mortgage (whether it has been arranged by us or not) we are also able to offer competitive buildings, contents and personal insurance policies, please contact us with your requirements for a no obligation quotation.

Stop Press

Bank of England announce Base Rate Change to 0.50% today Thursday 5th March 2009. Anyone with a mortgage or contemplating a mortgage should check to see if they are getting the best deal. Contact us now.
